

Technology INDUSTRY:
COVID-19 SOCIAL LISTENING

APRIL 8, 2020

AS COVID-19 HAS IMPACTED ALL AREAS OF TECHNOLOGY OVER THE PAST MONTH, WE HAVE SEEN A SPIKE IN SOCIAL MEDIA CONVERSATIONS RELATED TO TECHNOLOGY AND COVID-19.

MANY TECHNOLOGY SECTORS APPEAR TO BE A LIGHT DURING THIS DIFFICULT TIME, THOUGH MUCH IS STILL UNCERTAIN. PEOPLE APPEAR TO BE TURNING TO STREAMING SERVICES, VIDEOCONFERENCING AND ONLINE ORDERING IN DROVES, NOT ONLY OUT OF NECESSITY BUT FOR SOCIALIZATION AS WELL.

TABLE OF CONTENTS

04

How the Industry Has Been Impacted

13

What This All Means for the Industry

19

Social Media Listening

27

The “Burke Perspective”

A LOOK AT HOW THE TECHNOLOGY INDUSTRY HAS BEEN IMPACTED BY COVID-19...

VIDEO STREAMING SERVICES SEE ENORMOUS GROWTH, BOTH IN DOWNLOADS AND USAGE AS CUSTOMERS SPEND MORE TIME AT HOME

VIDEO STREAMING SERVICES

- Downloads for Netflix surge in March, both domestically and internationally.
- While Netflix streaming in the U.S. is up, Disney+ has taken the top spot for number of downloads, both in the U.S. and globally.

NETFLIX

Source:
The Motley Fool, "Netflix Subscribers Spike in Areas Ravaged by Coronavirus" <https://www.fool.com/investing/2020/03/17/netflix-subscribers-spike-areas-hit-coronavirus.aspx>
Nasdaq, "Is Coronavirus Boosting Netflix's Subscriber Growth?", <https://www.nasdaq.com/articles/is-coronavirus-boosting-netflixs-subscriber-growth-2020-03-08>

PEOPLE ARE TURNING TO VIDEO GAME STREAMING EVEN MORE, USING IT AS A SUBSTITUTE FOR PROFESSIONAL SPORTS

VIDEO GAMING STREAMING SERVICES

- Video game streaming is gaining in popularity as more time is spent at home. With the cancellation of sports, viewers are turning to video game streaming instead.
- Professional athletic events have been canceled and viewers are turning to video game streaming as an alternative.

Source:
The Motley Fool, "Video Gaming Streaming Surges in Popularity Due to Coronavirus," <https://www.fool.com/investing/2020/03/23/video-game-streaming-surges-in-popularity-due-to-c.aspx>

A BRIGHT SPOT AMID THE PANDEMIC, VIDEOCONFERENCING IS SURGING, USED BOTH FOR WORK AND SOCIALIZATION

VIDEOCONFERENCING

There has been a **300% growth** in teleconferencing apps in the U.S. in the last month.

zoom

COVID-19 IS CHANGING THE WAY AMERICANS BUY GROCERIES AND IT MAY HAVE A LASTING IMPACT ON THE SUPERMARKET INDUSTRY

ONLINE GROCERY SHOPPING

Last year, only 4% of grocery sales in the U.S. were online, but now, Instacart, Walmart's grocery app, and Shipt have increased their downloads compared to last year:

In the past week, **1/3 of consumers** said they purchased **groceries for online pickup or delivery...**

...and of these consumers,

were using online pickup or delivery for the first time.

Similar shifts to online grocery shopping occurred in China and South Korea during the pandemic.

Source: CNN, "Coronavirus will change the grocery industry forever", <https://www.cnn.com/2020/03/19/business/grocery-shopping-online-coronavirus/index.html>

PEOPLE ARE USING DELIVERY APPS EVEN MORE (UP 16% IN 2020), BOTH FOR CONVENIENCE AND TO MINIMIZE CONTACT

RESTAURANT DELIVERY APPS

- With **6.7 million downloads of Uber Eats in the past month**, it is the **most downloaded food delivery app**. Users of food delivery apps have increased 16% since last year.
- However, **walk-outs and strikes are being organized** among delivery drivers and **could pose major problems** for these tech companies.
- **Though food delivery is up overall, grocery is up more**, taking some share away from restaurant delivery.

Overall Downloads

1		Uber Eats
2		Grab
3		Domino's
4		iFood
5		Foodpanda
6		Zomato
7		KFC Home Delivery
8		DoorDash
9		Swiggy
10		Glovo

App Store Downloads

1		Uber Eats
2		DoorDash
3		Fresh Hema
4		KFC Home Delivery
5		Ding Dong
6		Domino's
7		Yelp
8		Dmall
9		Grab
10		Foodpanda

COMPUTERS AND EQUIPMENT SALES HAVE INCREASED 2X DUE TO THE WORKING AT HOME SURGE

HARDWARE IMPACT

- In February, many experts thought that the coronavirus would severely impact computer and accessory sales with their China distributors being hit the hardest.
- However, in March, with many employees working from home, sales saw a large uptick. Computer products necessary for working at home flew off the shelves for those needing a more permanent solution.

Thinking about your everyday life, since the COVID-19 / Coronavirus pandemic, have you made any changes to your general lifestyle? (as of March 31)

Statista, "Statista COVID-19 Daily Survey Results", www.statista.com

Companies seeing the largest rise in sales include:

ONLINE TRAVEL AGENCIES HAVE BEEN HIT PARTICULARLY HARD, THOUGH NO MORE THAN IN PAST GLOBAL CRISES (SO FAR)

ONLINE TRAVEL IMPACT

How the Travel Industry Has Dealt with Previous Crisis

- After previous crises, such as 9/11, the travel industry has been dramatically impacted.
- Technological innovations from companies like Expedia and Priceline were instrumental in OTA recovery.
- Furthering technology and a focus on customer communication are expected to regrow the OTA industry.

A LOOK AHEAD...

China's Airlines on the Rebound, but Travel Still Slow

- China's domestic flights increased slightly in March, but that was still less than half the flights pre-pandemic.

Source:

WHAT IS BEING SAID ON SOCIAL MEDIA?

"Customers booking through third-party site such as Expedia, Booking.com and Orbitz are struggling to get assistance and refunds as the coronavirus pandemic disrupts travelers' plans around the world." -CNN (@CNN), March 24

"Thank you @expedia for immediately issuing me a credit for @Aerolineas_AR due to #coronavirus. The online process was seamless. Meanwhile, I've been waiting well over a week to hear back from @priceline about doing the same for my main flight." -Ben Goldblatt (@BenGoldblatt), March 21

"@AirbnbHelp why haven't you guys changed the dates for your covid-19 policy? We've got counties on lockdown for 12 weeks... companies like Hotels.com are offering refunds on non-refundable bookings." -Ana (@ana_sewell), March 28

CHANGE IN GOOGLE AD CONVERSIONS FOR TRAVEL ADVERTISERS AS A RESULT OF COVID-19 IN THE U.S. (MARCH 2020)

(Growth in Google ad conversion for travel advertisers due to COVID-19 U.S. 2020)

TECHNOLOGY IS ALSO USED IN UNIQUE WAYS TO COMBAT COVID-19 FROM EARLY SYMPTOM DETECTION TO TRACKING THE INFECTED

UNIQUE TECH APPLICATIONS

Smart Ring to Detect Early Symptoms

- New ring tech from Oura will be worn to detect the early onset of COVID-19.

Use of Location Data from Smartphones to Slow the Virus

- Researchers collecting smartphone data to track the infected in order to slow the growth of the coronavirus.

Rise in Telehealth/Telemedicine

- Telemedicine could forever change the patient experience. Digital adoption barriers are down as people are forced to use technology in new ways.
- Both mental health and substance abuse appointments are using telemedicine to positive reviews.

Source:

CNET News, "How a Smart Ring May Help Detect Early COVID-19 Symptoms", <https://www.cnet.com/news/how-a-smart-ring-may-detect-early-covid-19-symptoms/?ftag=CAD-03-10aai8i>

WHAT DOES THIS MEAN FOR THE TECHNOLOGY INDUSTRY?

THE POST COVID-19 PURCHASE FUNNEL WILL FORCE US TO ENGAGE DIFFERENTLY WITH CONSUMERS GOING FORWARD

The traditional marketing funnel has been accelerated for many technologies and brands.

- Consumers have moved immediately to trial in a matter of days/hours.
- Traditional steps of evaluation were reduced or eliminated out of necessity.

THE MARKETING FUNNEL

Research Focus for Tech Companies:

- **User Experience** (utility + usability of products)
- **Understanding the new customer journey** and its impact on the future ROI of these new customers
- **Habits & Practices research** – how have habits changed and monitor how they evolve over the months to come
- **Brand Tracking** – how has the landscape changed? Are there new or more prevalent contenders? How well (or not) is your brand faring now?
- **Customer Engagement** – how do we best engage with these new customers? What can we do now to build loyalty in order to keep them?

COMMUNICATION AND EMPATHY CAN BUILD TRUST AND HELP BRANDS COUNTERACT CHALLENGES BROUGHT ON BY COVID-19

STRATEGIC BEST PRACTICES

Issue a Statement Regarding COVID-19

- If your customers could be impacted by the virus, issue a statement.
- If qualified, use this communication to convey tips, best practices, advice and other critical information.

Be Empathetic

- Customers are experiencing fear and anxiety - ensure brand messaging is empathetic toward their new daily challenges.

Build Awareness

- Now is the time to build trust and support. Focus on building awareness of your brand, not converting sales.
- Tailor messaging to fit customers needs and communicate how your company is helping.

POSITIONING BRANDS AS EMPATHETIC AND WILLING TO HELP WILL ASSIST IN COUNTERACTING CHALLENGES BROUGHT ON BY COVID-19

RESPONSES FROM LEADERS IN THE INDUSTRY

Several Tech companies have already taken action in response to the coronavirus outbreak...

Facebook

- Donated stockpiled masks to the healthcare system
- Hosted WHO in Menlo Park headquarters
- Banned ads monetarizing the pandemic

"Facebook donates emergency reserve of 720,000 face masks due to coronavirus pandemic." –[getlifehealthy \(@getlifehealthy1\)](#), March 24

"#Facebook bans #ads for hand sanitizer, surface disinfecting wipes and #COVID-19 test kits – 'this is another step to help protect against inflated prices and predatory behavior we're seeing.'" –[Petros Sarantopoulos \(@psaranto\)](#), March 21

Apple

- Donated stockpiled face masks to hospitals in need
- Developed a new COVID-19 website and app with the CDC

"Apple will donate 10M face masks to healthcare workers." –[TechCrunch \(@TechCrunch\)](#), March 25

"#Apple releases new #COVID19 app and website." –[Philip Schiller \(@pschiller\)](#), March 27

THESE BRANDS GARNER POSITIVE SOCIAL MEDIA BUZZ DUE TO THE WORK THEY ARE DOING TO HELP

RESPONSES FROM LEADERS IN THE INDUSTRY

Several Tech companies have already taken action in response to the coronavirus outbreak...

Zoom

- Removed 40-minute call limit
- Offered free Zoom videoconferencing to schools

"I was on a zoom call and they removed the 40 minute time limit 'as a gift' and when I got off the call they offered to remove the time limit for my next meeting if I scheduled in advance." –Gray (@CodeDork),

"We expanded free Zoom Access for K-12 Schools in Australia, India and New Zealand." – Eric S. Yuan (@ericnyuan),

Salesforce

- Launched Salesforce Care rapid response solution to help companies stay connected to employees, customers, communities
- Donated medical masks to various healthcare systems
- Provided access to Health Cloud for overwhelmed healthcare systems

"Amazing: @Childrens is live on Salesforce Care for Healthcare Systems. This rapid-response Community Portal is designed to help answer their employee's questions and provide them with resources during COVID-19." –Marc Benioff (@Benioff), ????

"HUGE thank you to @salesforce Israel for supporting MDA's program to help the public get critical medical treatment from MDA to prevent hospital overcrowding during the #COVID19 pandemic. Your support will save lives!" –Magen David Adom (@Mdais), ?????

WHILE THE COVID-19 PANDEMIC HAS TEMPORARILY CHANGED THE WAY WE LIVE, ONLINE SHOPPING AND WORKING FROM HOME MAY BE HERE TO STAY

IMPACTS OF COVID-19 ON THE TECH INDUSTRY GOING FORWARD

- Tech has seen large upticks in usage during the pandemic. Video streaming, videoconferencing, grocery, mobile delivery apps have been positively impacted.

WILL THESE NEW TRENDS OUTLAST THE PANDEMIC? HERE ARE A FEW TRENDS THAT MAY STICK AROUND:

- **Online grocery shopping is likely here to stay...**
 - In addition to high usage among all age groups, many age 60+ are coming online. As online ordering becomes a habit, they may continue using post-pandemic.
- **Working from home will be more common...**
 - Experts believe that once employees return to work, many will work from home more often than in the past.
 - Thus, demand for videoconferencing is likely to exceed pre-pandemic levels as these brands have surged in popularity.

A LOOK AT THE “BURKE PERSPECTIVE” ...

“THE BURKE PERSPECTIVE”

IN NAVIGATING HOW COVID-19 WILL, OR SHOULD, INFLUENCE YOUR APPROACH TO RESEARCH, BURKE LOOKS AT THREE KEY AREAS OF FOCUS:

01.

Internal and industry implications of COVID-19 - how customers think about, or interact with, you or competitors

02.

Changes you need to consider within your research (current and future perceptions, attitudes, and behaviors)

03.

Analysis of data in light of the current environment

ZOOMING IN ON “THE BURKE PERSPECTIVE”

QUESTIONS TO CONSIDER INTERNALLY:

- How has your media plan changed in light of the pandemic?
 - Changes to messaging?
 - Changes to marketing / advertising *cadence*?
 - Changes to prioritization of key markets? Or customization by market?
- Have you stopped or adjusted research in specific countries or markets? In any key industries?

ADJUSTMENTS TO RESEARCH:

- Adjust introductory text for appropriate tone
- Gauge perception on how well / poorly you and competitors are handling the pandemic overall, as well as specific aspects of your response (e.g., treatment of employees, donations / community support, contribution of medical supplies, technology support for health and / or educational organizations, and level and tone of communications to customers).
- B2B: capture impact of CV-19 on their own organization in terms of magnitude of various pain points (e.g., layoffs, loss of revenue, technology challenges, etc.)
- B2C: capture impact of CV-19 on their HH in terms of magnitude of various pain points (e.g., unemployment, economic hardship, health issues, etc.)

CONSIDERATIONS REGARDING ANALYSIS:

- Temper research results, anticipating potential KPI skews from previous research. Research during or after CV-19 may act as a new baseline.
- Analyze potential changes in key measures through the lens of the progression of the virus spread and prevalence (by city, state, country, etc.)
- Analyze potential drivers of CV-19 brand perception metrics on changes in KPIs (i.e., how well is a company handling the pandemic impacting brand consideration?)
- Overlay knowledge of CV-19 responses by both your brand and key competitors (e.g., community efforts, donations made, etc.) with KPIs to identify any potential impacts.
